

AQUARIS

# A DISCOUNT TOKEN FOR THE WATER CENTURY

AQUARIS knows there are steps we can take now to better steward our ocean resources. That is why we have set out on a mission to harness the power of blockchain technology, to align incentives towards preserving the oceans and all water resources.

# FROM THE BALTIC SEA TO THE WORLD

Started in Estonia, a country that combines both a rich tradition in fishing and an advanced use of blockchain technology, AQUARIS is thinking globally while acting locally.

## PORTFOLIO

The entirety of the Aquaris portfolio will be designed to bring together key stakeholders in the seafood ecosystem: processors, fishing vessels, and seafood companies.

Our development strategy involves the participation of fisheries' managers and fishery scientists, as well as indirect experts such as recreational fishermen, conservationists and representatives of other industries.

# FIRST USE CASES:

- FISH PROCESSING FACILITY
- SOLAR POWER
- CRYPTO MINING

For the benefit of the Project, Aquaris may invest in areas related to fisheries. The first business Aquaris plans to invest in will be a fish processing plant in Estonia, which will be integrated into a renewable energy cryptocurrency mining plant.

## AQS TOKEN

The Aquaris native token, AQS, functions as a discount token, meaning holders earn perpetual discounts on products and services from players in the Aquaris ecosystem.

AQS holders enjoy discounts.

AQS design incentivises early adoption so that non-token holders can still access a certain product while not receiving the discount without the token.

## TOKEN HOLDING BENEFITS

Discounts are linked to the network's growth, and increase with adoption.

Overall returns to active AQS holders outweigh the returns to passive token holders, because the discount can only be fully realised by using Aquaris products and services.

AQS enables holders to use the discount, and fees don't need to be paid in the discount token so the supply of the token tightens.

# STAKING

The Aquaris Staking Pool minimises risk by pegging returns to real world businesses.

Aquaris staking pool will allow verified private and commercial users to put up crypto, including for a discount when using AQS, as collateral and earn staking fees.

The Aquaris staking pool offers staking rewards of up to 15% per year with a combined reward reaching upwards of 25%, featuring four staking levels based on the amount staked. These accounts can be accessed via the Aquaris Portal.

## Q2 / 2021

- Launch website
- Publish Whitepaper
- Presale launch

## Q3 / 2021

- Token generation event (test net)
- Token security audit

## Q4 / 2021

- Plant Acquisition
- Plant Manufacturing Modernization and Optimization

## Q1 / 2022

- Marketing campaign
- Legal opinion
- Platform development

## Q2 / 2022

- AQS token public launch
- Launchpad

## Q3/ 2022

- Launch Staking Portal for Staking for Presale Users
- Token Integration with Commercial Clients

CATEGORY	PRICE	ALLOCATION	LOCK PERIOD	VESTING
Private Round*	\$0,01	130 000 000	No lock	After listing, linear monthly for 12 months
Public Round	\$0,02	20 000 000	2 month	After 2 months from listing, 50% unlock every 2 months
DEX Listing	\$0,03	100 000 000		
Team		40 000 000	36 months	
Development & Operations		30 000 000	3 months	
Marketing		30 000 000	3 months	
Reserve		100 000 000		
Holding Rewards		50 000 000		
Total Supply	500 000 000	**		
* Bonus up to 30% and 1/12 every month from listing date on DEX platform				
** Burnable, Not mintable				
Unsold tokens from the Private Round will be added to the total amount of the Public Round Lock and vesting period subject to change based on launchpad conditions				

## TOKEN SALE

Those who purchase AQS first will receive the lowest rate with bonuses up to 30% and up to a 10% referral bonus. All amounts will be locked for one year. Buyer receives their tokens each month from the amount beginning from the DEX listing date. The starting price during the private round will be \$0.01.

During the Official Sale phase, tokens will be priced at \$0.02 with 20,000,000 tokens will be sold during this phase. Aquaris plans to offer its tokens via one of the leading launchpads.

During the Open Sale, 100,000,000 tokens will be available at a starting price of \$0.03, and AQS will be listed on the DEX platform.
